

North Coast Freshwater Salmon Regulations 2015

Version: 4/6/2015

Contains changes only. If a river is not on this list, there are no proposed changes.

Note: These regulation proposals are presented for public comment, and reflect a probable need on the North Coast to conserve wild coho and reduce pressure on Chinook stocks. Actual regulations are pending review of the comments received, discussions with Tribes, and results of modeling the proposals to estimate catches and escapements.

WATER	SEASON	MIN. SIZE	DAILY LIMIT	ADDITIONAL RULES
